### Objective

The Objective is to create a diversified portfolio of listed microcap companies and then to invest opportunistically in unlisted entities that offer better relative value. The performance objective for ACQ is to outperform the S&P/ASX Small Ordinaries Accumulation Index over the medium to long term.

### Dividend Intention

Acorn Capital Investment Fund Limited intends to pay annual dividends targeting at least 5% of closing post-tax NTA for each financial year, franked to the highest extent possible and without the Company incurring a liability. Where the Company accumulates franking credits that the Board determines are in excess to its requirements it is the intent to distribute those excess credits by way of special dividends. This is subject to the Company having sufficient profit and cash flow to make such payments

### Investment philosophy

The investment philosophy is based on a belief that there are pricing inefficiencies amongst emerging or microcap companies due to a lack of readily available external research conducted on such entities.

Acorn Capital believes that through a research driven investment process the pricing inefficiencies that exist in both listed microcaps and unlisted microcaps can be exploited to earn returns superior to those available in the broader market.

Unlisted microcap opportunities must be of better relative value on a risk-adjusted basis to displace existing listed portfolio investments in the corresponding sector.

### Strategy

- Research-driven stock selection
- Economic sector diversified
- Style agnostic
- Long term investor
- Create diversified portfolios to reduce volatility

### Manager profile

Established in 1998 Acorn Capital Ltd is a specialist Australian microcap manager
